Experience

Defense Information Systems Agency (DISA)   Fort Meade, MD
CBT Software Developer & Trainer   February 2020 -Present

- Develops CBT programs including topics in operational support, system deployment, and network management. Highly proficient in creating, leveraging and implementing technology platforms.

- Works as a member of a highly creative, collaborative and fast-paced e-learning design and development team. Led the implementation and proposal of our training platform, Moodle.

- Lead, develop and leverage the Moodle training platform for a custom, cutting edge training environment. Utilize Adobe Creative Suite for Designing Custom Course materials.

- Experience leveraging development languages for creating a custom Training platform experience. Expertise of HTML5, CSS, JavaScript, PHP, Responsive Web Design, MySQL and UX Design.

DoD Cyber Crime Center (DC3)   Linthicum Heights, MD
Senior UX & Web Developer   October 2018 – December 2019

- Understanding and implementation of client-side web development utilizing the DOM Model, HTML5, CSS3, SaSS, JavaScript, Bootstrap, jQuery, Liferay CMS, and the Command Line.

- Proven Ability to translate UI Design concepts and prototypes into front-end interfaces while collaborating with the UX Team. Lead discussions regarding development approaches and creative solutions while mentoring junior developers.

- Reviews specifications and provides estimates on projects and features. Builds Reusable code, templates, module artifacts, and libraries for future use. Ensures designs can be implemented across the CMS, LMS and Moodle. Thrived in an Agile Project Management Setting for projects.

- Knowledge of issue Tracking Software JIRA, Confluence, Version control platform GIT & GIT Kraken, site optimization and site scalability.

NJ Department of the Treasury   Trenton, NJ
Software Development Specialist   April 2017 – October 2018

- Led the Communications Unit in the redesign of the Pensions & Benefits website. Worked as the lead project manager to help devise an organizational plan, develop the website, and consolidate content from 1,000+ pages to 150 pages.

- Acted as primary Liaison between management, Copy Editors and Graphic Designers for the project. Devised Project Management plans using the Google Suite as well as project timelines, website structure, and future workflows. Helped create design assets for the brand as Needed.

- Acted as Sole Web Developer for the website. Established and maintained brand standards for the Division of Pension & Benefits while completing the project in an 11-month period.

- Utilized my knowledge of the Adobe Creative Suite, HTML, CSS, JavaScript, FTP, Project Management, Responsive Web Design and Web Graphic Design to coordinate the project.

Federal Aviation Administration   Egg Harbor Township, NJ
Web Developer   November 2015 – March 2017

- Object oriented analysis, Design, and implementation of .NET applications including client/server, web based and n-tier applications. Specialized in unit Integrations, system testing and debugging of applications.

- Knowledge and experience with JavaScript, HTML and CSS. Excellent communication skills and the ability to work well within a team. MySQL, ColdFusion, FTP, Git version control with Bitbucket, and static site generation using Lektor are other notable skills.

- My role allows me to manage front and back end of all website projects. Day-to-Day developer duties include: Multitasking, working independently, time management, code debugging and issue tracking.

Rivera Projects, LLC   Mays Landing, NJ
Owner & Web Designer   June 2013 – June 2016

- As the Owner of a small business my goal is to provide the best web design practices while including the convenience of training my clients for future self-management. WordPress is used for all my clients while basic HTML practices were taught to them.
- Expertise with the CMS platform WordPress, HTML, CSS, JavaScript, PHP and Adobe Creative Suite including Photoshop, Illustrator, Dreamweaver, and InDesign.
- Knowledge of UI design, social media marketing, project analysis, SEO and Responsive Design
- The ability to multi-task, produce creative solutions, maintain and quick project turnaround and provide thorough, detailed consultations for all clients and potential clients in respect to Web Design, Graphic Design, Ecommerce Solutions and Email Marketing Campaigns.
